

Humane Harassment: *Living with Nuisance Wildlife*

Tuesday, April 25

7:00 to 8:00 p.m.

Whitehall Borough Community Room
100 Borough Park Drive, 15236

Presenter: Alexis Fitzgerald, Manager of Humane and Wildlife Education for the Animal Rescue League Shelter and Wildlife Center.

Learn about the animals that are usually considered “nuisance wildlife” and the best ways in which to live in harmony with them. We will discuss methods to get the animals to leave your house or neighborhood on their own accord, without having to resort to trapping or other lethal methods of removal. Using these “Humane Harassment” techniques is often much safer for everyone involved, and include many procedures for avoiding conflict situations with animals!

This community education presentation is brought to you by the Whitehall Wildlife Committee and the Whitehall Public Library.

Please be sure to register for this free program.
